## CASE FILE #PL201700125

## Tier 2 Transportation Demand Management (TDM) Plan

Pursuant to the Bloomington City Code (Section 21.301.09), all new development must commit to implementing TDM strategies. Below is a checklist of potential TDM strategies from which to select. 494 Commuter Services is a free service that offers information about commuting. They provide resources and services to implement TDM strategies at no charge. Visit the website at www.494corridor.org.

BASI	C TDM STRATEGIES
	Provide preferential parking spaces for car and vanpools
	Promote the Guaranteed Ride Home program
	Provide bike racks and/or lockers
	Annual bike to work clinic including onsite bicycle tune up event
	Provide a transit stop easement for transit stops adjacent to the property
	Display a transit map or transit route brochures in a prominent location
	Allow employees to purchase discounted transit passes pre-tax
X	Provide commuter brochures to employees/tenants
	Quarterly commuter fairs (transit information, rideshare matching, bicycle commuting information, Guaranteed Ride home information)
	Regular commuting articles in newsletter
	Educational Brown Bag Lunches promoting commuter alternatives
	Other (Describe strategy on a different sheet)
ADVANCED TDM STRATEGIES	
	Provide shower facilities
	Pay not to Park program
	Work with Metro transit to provide a concrete pad, bench and/or shelter at the nearby transit stop
	Provide Metropass free, at a discount and/or pre-tax
	Subsidy for carpooling and/or vanpooling
	Participation in the regional Van Go! Program sponsored by Metropolitan Council
	Promotion of Rideshare to Work Week (campaign with prizes)
	Promotion of Commuter Challenge (campaign with prizes)
	BBQ or luncheon for people who use alternative modes
	Allow employees to work from home 1 to 5 days each week.
	Allow employees to set a schedule that allows them to commute at non-peak times.
	Other (Describe strategy on a different sheet)
Property Owner commits to implementing the TDM strategies checked above.
