Categories: CityView Planning Attachment

Liz,

We have decided to sign a lease in a different city so are no longer pursuing this space. They did not offer us a lease after over six months of working with them and the city processes are a lot of hoops to jump through without any pay off for us in the end. So we are not pursuing a business within the city limits of Bloomington.

Hi Robyn –

I am hoping you can clarify something for me. I received the building key on the right side of the screen. I am a bit confused because things look a little different than what you submitted on your floor plans. Will you be removing or building any new walls? If so, please let me know.
