PLAN REVIEW APPROVAL

Plans and specifications on watermain: Palacio Del Sol, Bloomington, Hennepin County, Plan No. 170495

OWNERSHIP: Bloomington City Council, c/o Ms. Janet Lewis, City Clerk, Bloomington City Hall,
1800 West Old Shakopee Road, Bloomington, Minnesota 55431-3027

SUBMITTER(S): Civil Site Group, c/o Mr. Joey Diederichs, EIT, 4931 West 35th Street, Suite 200,
St. Louis Park, Minnesota 55416

Date Received: April 13, 2017

Date Reviewed: April 21, 2017

APPROVED: The plan and specifications are approved based on the information provided to our office for review. Approval is contingent upon meeting all of the requirements listed below. **It is the project owner's responsibility to retain the plans at the project location.**

SCOPE: This report covers the project design's effect on the safety and sanitary quality of the drinking water. This report applies to this project only, and not to any additional parts of the water system. The examination of plans is based on the assumption that the information provided is accurate and complete and that the owner has the necessary legal authority to construct the project. The project designer is responsible for, but not limited to, the structural features, material selection, sizing of materials and equipment, equipment effectiveness, and installation methods.

Plans and specifications are examined with regard to the location, construction, and operational features of the design and maintenance of all parts of the system, which may affect the safety and sanitary quality of the water. Examination is based on the standards of this department.

COMPLIANCE: Construction must be according to the approved plans and specifications. If changes are made to the approved plans, Minnesota Department of Health (MDH) approval must be obtained before such changes are made. Otherwise, the construction will be considered as installed without proper approval. A separate correspondence will be issued for changes or addenda.

INSPECTIONS: It is the responsibility of the owner or owner's agent to contact the MDH for any inspections that are listed in the requirements of this report.

This project consists of the installation of 680 lineal feet of 6-inch ductile iron watermain.

Requirement(s):

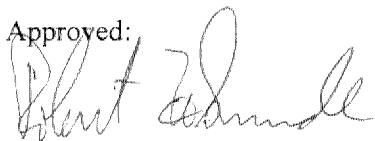

1. It is understood that the installation will be in accordance with previously approved City Engineers Association of Minnesota Watermain Specifications, 2013 edition.

The approval for construction of this project is valid for 2 years from the date of this letter. If project construction has not begun within the two-year period, plans and specifications must be resubmitted to MDH for approval before any construction takes place. While the project has been approved, additional recommendations or requirements may be made to the project when changed conditions, additional information, or advanced knowledge make improvements necessary.

If you have any questions regarding information contained in this report, please contact me at 651/201-4677.

Approved:

A handwritten signature in black ink, appearing to read "Robert H. Smude", written over the word "Approved:".
