SoftView

BYVD with **concrete optics**

Gardco SoftView LED parking garage luminaires have an edge LED technology providing a uniform light with minimal glare to illuminate the most demanding spaces. An added light feature makes this the best choice for increased natural light security. SoftView has an adjustable glare control feature that provides an excellent option providing you with the best solution for your parking facility with low glare levels. Customizing your garage lighting made easy by online garage lighting and a map to the website.

PureForm
F28 medium area light

Gardco PureForm F28 is a medium F28 features a sleek, low profile design and optimal performance. Full size area lights in a series gives you the best value when pairing with systems output up to 20,000 lumens. Multiple color fixtures and dimming options are available to achieve maximum control. Full range of control options, including wall control and remote control.
