To: Travis Lemke <travisalemke@gmail.com>

Hello,

The first thing to do would be to contact Gopher State One and have locates done on the property. We recommend staying a minimum of 3 feet from power lines. There are no other requirements to do other than locates. You do not need to submit a review to us.

If for some reason a relocate of service is needed because the line will be in the way, you can make an application for a service relocate by using the link below:

<https://my.xcelenergy.com/BuildingRemodeling/s/>

Please let us know if we can be of further assistance.

Thank you.

Laura McCawley
