Hi Anya,

Below is a chain of emails showing that a MPCA sanitary sewer extension permit is not needed.

Sincerely,

Brooke Jacobson, AIA, LEED AP, CDT
Principal

Quinn / Brooke.

Please see below regarding an MPCA sanitary sewer extension permit not being required for BFS #4.

Matt

EXTERNAL SOURCE ALERT. Please use proper judgment and caution when opening attachments, clicking links, or responding to this email.

We have reviewed the plans submitted and determined that an MPCA Sanitary Sewer Extension permit is not required.

Local permits for connection to the city sewer and MCES system may still be required.

David,

I just wanted to follow up on this and see if you had any questions or needed any additional information. I will be out next week so I have included Matt Woodruff on this email who can help answer any question while I'm gone.

Thanks,

T.J. Rose, P.E.

Subject: Bloomington FS #4 Sanitary Sewer

David,

We are the civil engineers working on a new Fire Station project in Bloomington. The City has requested confirmation whether a Sanitary Sewer Extension or Modification Permit from the MPCA is required for this project. Our civil plan set is attached for your reference (utilities are shown on C400). It is our understanding that a DOLI review on this site has been completed. This is a single service to an individual building, and not within a city easement.

Can you please confirm if a permit from the MPCA will be required for this project?

Please let me know if you have any questions. Thanks.
