

Tips for Next AUAR Update - Memo to AUAR File

RE: AUAR Format and Section Organization

In 2013, the requirements for content (topical sections) and organization of EAW/AUAR documents were updated. The revised format consolidates what had been 31 topical subsections into 20 subsections, greatly reducing redundancies.

The 2016/17 AUAR Update followed the format of the original EAW/AUAR content requirements (31 subsections), but referenced the revised EAW/AUAR sections.

The next AUAR update (2022) should follow the format described in the 2013 EAW requirements, or more current requirements if any.
