

The Arts Creative aims to build community through the arts. The business will focus on offering affordable art classes for youth and adults, as well as Artist book club planned to invite local artists into the space. As a licensed educator with over 10 years teaching in Bloomington and surrounding communities, I want to offer an option for summer and after school programs for the youth. I also recognize the need for my peers to create and express, which I believe is just a great of a need.

Art classes will be between 1.5 and 3 hours long. Class sizes will be 12 guests. Private groups would be a max of 20. Classes offered could be a variety of mediums including painting, drawing, ceramics, stained glass, or knitting and other crafts.
