Subject: RE: 24th Ave at 79th Signal removal - driveway install on American Blvd

Main Mall contact:
Rich Hoge (I attached the email where he approved the site plan)

Brief project summary:

The City will be installing a driveway along American Boulevard for access to the Mall's porkchop property. This new driveway access will be provided because Hennepin County is closing the median along 24th Ave at 79th St with the traffic signal removal project. The Mall indicated that they use this parking lot for security inspections if a vehicle is denied entrance to the Mall, so the City agreed to provide this new driveway access so that these vehicles can still access this parking lot from the Mall.

Please let me know if you need anything else.

Thanks,
