

LEVEL 1

The architectural site plan illustrates the layout of the JW Marriott hotel and its surrounding commercial and recreational areas. The hotel, located at the top right, features 342 rooms and is adjacent to a central parking area. To the left of the hotel, a large parking lot is situated near the Anthropologie building. The plan also shows a variety of retail and service buildings, including the Tiger Barn, Club Monaco, Nordstrom's Court, and several smaller shops like Paper Source, Anthropologie, and the Search Courtyard. The plan is oriented with Lindal Lane at the top and the North Garden area at the bottom. The overall layout is designed to provide easy access to the hotel and its surrounding amenities.

This detailed site plan illustrates the parking lot layout with specific charging station locations. A callout box labeled 'Tesla Chargers' points to a cluster of stations in the upper left corner, near a building labeled 'ALL Tesla CHARGES'. Another callout box labeled 'Speed Chargers' points to a row of stations along the top edge of the lot. The plan is divided into three main sections: 'AREA C' on the left, 'AREA - B' at the bottom left, and 'AREA - A-2' on the right. Arrows indicate the flow of traffic and vehicle movement throughout the parking area. Various building footprints, including a 'RESTROOM' and a 'CLOSET', are also shown.
