Subject: Bloomington Central Station Phase 3 Housing; Bloomington, Minnesota
Acoustical Conformance of Exterior Assemblies
VA Project No. 3912-065

Dear Christopher:

Veneklasen Associates (VA) has reviewed the Bloomington Central Station Phase 3 Housing architectural drawings with reference to our acoustical report. VA reviewed the drawings for the incorporation of the noise mitigation recommendations described in our report that are required to meet the applicable City and State interior noise criterion.

VA has found that all of our acoustical recommendations have been incorporated into the architectural drawing set. If constructed, the interior noise criterion set forth by the City and State will be satisfied.

If you have any questions regarding this information, please do not hesitate to contact us.

Sincerely,
Veneklasen Associates, Inc.

Samantha Rawlings, LEED AP BD+C
