Hello,

I have attached a google earth image that shows the trees are there. We even have more shrubs than what was required

Please let me know if you need me to do anything further.

Hope you're staying healthy,

I have attached the 2018 Aerial Image and the attachment with a highlighted area. It is challenging to base this off an aerial view, as the shadows and branches are sometimes unclear. But it is the only tool we have that is most current. If you can provide on a plan that there are 18 trees and 49 shrubs, then I can review and update the letter.

Thanks

Good afternoon,

We have received the following correspondence about our property located at 9304 Lyndale Ave S (Former Dairy Queen). On page 2 of the attached, it says "it appears some landscaping material may have been missing or been

removed". Can you please tell me what you are referring to? No landscaping items have been removed from the property.

Thank you for your help,
