

SUCCESS ACADEMY

Cover Letter/ Project Description

info@successacademymn.org

Success Academy will install a commercial playground made by Playworld. See plan and description of the equipment that will be used.

The playground will be installed in the north east side of the building west of the tennis court. All city required setbacks will be maintained.

The purpose of the playground is to provide a safe play area for Success Academy students where they can be shielded from intimidation and /or harassment tactics as well as other similar aggressions we have experienced as a community while using Smith Park playground.

Thank you,

Magdy Rabeaa
