Considering materials and records on file, determining the level of City Code development performance standard compliance is unknown. To complete an in-depth performance standards review, plans, including but not limited to as-built surveys, any floor plans, use details, or other information must be provided. A performance standards review base fee of \$135 plus \$58 per hour for each hour over 2 hours. The building permit record retention schedule is 15 years, and there are no building-related plans on file.

In 1996, the City Council approved a parking lot and security ordinance which required full compliance with the City Code at a future date. Currently, the City Code compliance is required by December 31, 2024. This site may require significant upgrades to the parking lot, and building entry's to comply with these requirements.

According to City records, the gross building area is 70,330 square feet and the basement area is 26,892 square feet. If that is accurate, there is 43,438 square feet remaining. Assuming this is correct, and the total usage is offices, the parking requirement is 1 space per 285 square feet, which totals 152.4 parking spaces. According to the records, there are 168 parking spaces on-site. Based on this information, the parking space is compliant. Any change in use must be reviewed for parking compliance.

The applicable City Code (zoning) sections applicable including but are not limited to:

- Section 19.38.02 – Flood Hazard (FH) Overlay Districts
- Section 19.63.01 – Exterior Materials
- Section 19.113 – Signs
- Section 21.205.04 – Freeway Office (C-4) District

- Section 21.301.06 – Parking and Loading
- Section 21.301.07 – Exterior Lighting
- Section 21.301.10 – Height

- Section 21.301.17 – Refuse Handling and Storage
- Section 21.301.18 – Screening of Roof Mounted Equipment

3) Utilities serving the Property:

According to the City of Bloomington (City) Public Works Division records, the Property is served by water, sanitary sewer, and storm sewer. Non-City providers provide all other utilities. Please contact the appropriate provider for detailed information on other services to the Property.

4) Right to Rebuild Following Casualty:

The office use in the C-4 Freeway Office Zoning District may continue following casualty if complying with City Code Section 21.504, Non-conformity, and the applicable performance standards. Without a full performance standards review, it is unknown without reviewing an as-built survey, floor plans and related development details. Rebuilding the Property to the legally non-conforming development level is allowed, provided a permit is issued within 365 days of the casualty date. Any changes would require compliance with the applicable codes when rebuilt.

City records show no open enforcement orders against the Property at this time. However, this statement does not mean the Property is free of violations or fully complies with federal, state and local applicable codes.

5) No Further Approvals or Licenses Required:

The current use by its present owners for office purposes is permitted under the Zoning Ordinance without any rezoning, special exceptions, use permit, variance or other approval. I am not aware of any other permit or license required by this jurisdiction a purchaser must obtain before acquiring the Property or before the Property may continue to be used in the manner it is presently being used.

6) Compliance with Subdivision Regulations:

The Property complies with applicable subdivision regulations or is otherwise exempt from. On April 5, 1982, a Plat of Nine Mile Offices was approved and subsequently filed. (Case 6217A-82)

7) No Application(s) Pending:

No application for rezoning, a special or conditional use permit, or variance in connection with the Property is now pending. Further, no proceeding to challenge zoning or other governmental approval or use of the Property is pending or overtly threatened to the best of my knowledge.

8) Certificate of Occupancy:

I am unable to locate a certificate of occupancy for the Property. I have no reason to believe; given the case file history described above, that one was not properly issued. The absence of a Certificate of Occupancy would not give rise to any enforcement action affecting the Property. A new purchaser does not need to obtain either an original Certificate of Occupancy or an amendment to the existing Certificate of Occupancy to continue using the Property as initially approved.

9) Open Permits, Known Violations, or Fees Due:

I am unaware of any active or alleged violations of any zoning, subdivision, building, or similar ordinances or regulations applicable to the Property within the past three years. There is no record of any pending or contemplated enforcement proceedings against the Property.

However, this statement does not mean the Property is free of violations or fully complies with federal, state and local applicable codes as no performance standard review has been completed. All required fees have been paid in connection with the Property's development and use, including any impact-related fees, have been paid. No such fees applicable to the Property are otherwise pending or known.

10) Flood Zone Designation:

The Property is located in a Flood Hazard Overlay Zoning District. The Flood Insurance Rate Map (FIRM) for the City designates the Property as Zone A and Zone X on Panel Number 2753C0451F dated November 4, 2016.

This information was researched by City staff as a service. The undersigned certifies that the above information is accurate based on the information supplied for this zoning verification and the information on file with the City. The City assumes no liability for errors or omissions. All data was obtained from public records, which may be inspected during regular business hours.
