Subject: Re: Frauenshuh Parking Lot Addition

Nick,
Frauenshuh would like to install parking on one of the parcels they own adjacent to their office building on 7101 W. 78th St. They find that they are having more meetings at their office which results in more visitors to the site. They would like to construct a few additional stalls to account for more visitors. If you have any questions or need additional information, give me a call.

Thanks, Vicki
