Use of the primer may commence once the permit fee has been paid. Please log in to your account and pay the fees first.

Thanks,

Liz

Subject: City of Bloomington Discount Tire Primer Letter

Mike,

Per your conversation with Alex, please see attached letter from Discount Tire referencing the primer application to complete the building coverage. Please note, when we submitted the application for the stucco, an engineered letter was required for the product. We had the manufacturer's rep from STO conduct a site survey to provide the engineer with a letter confirming the brick and primer were an acceptable substrate. I submitted this for the stucco approval and have included it in this email. Please let me know if this is good to go so, I may send a crew to complete the primer as soon as possible.

Best regards,
Aaron

Dear City of Bloomington,

The unfinished look of the building is affecting the business of our store in Bloomington. With the eminent weather, we have been left with few options. We are requesting approval to apply a temporary primer coat to allow for completed coverage on the building for the winter months. In the spring, as soon as weather permits, we will apply the approved stucco from permit number PRBD202312005. This permit submission included a letter from the manufacturer that approved the product use over the brick, also approving the paint or primer as a substrate.

Respectfully

Dave Wenisch
