

OPPORTUNITY HOUSING - AFFORDABLE HOUSING PLAN

Residential developments of 20 units or more must submit an Affordable Housing Plan to the City of Bloomington as a part of the application for a final site and building plan, a final development plan or for NOAH preservation. An Affordable Housing Plan is not required for a development in which the affordable housing obligation is satisfied by a payment in lieu. The developer's commitment to meet the requirements of the Opportunity Housing Ordinance and the description of the affordable housing tools and incentives requested in the Affordable Housing Plan will be included in the development agreement with the city.

Fill in a response beneath the italicized text for each section below and submit this document with your application to serve as your Affordable Housing Plan.

A developer or owner may propose an alternative method to meet the opportunity housing requirement. Based on evidence specified in the Affordable Housing Plan, the community development department may approve such an alternative if the alternative will provide as much or more affordable housing at the same or lower income levels, and of the same or superior quality of design and construction and will otherwise provide greater public benefit than compliance with the requirements of this chapter.

Upon submittal, the community development department will determine if the affordable housing plan is complete and conforms to the provisions of this chapter and the opportunity housing guidelines. The Developer will receive written comments on their Affordable Housing Plan at the next scheduled Pre-Application or Post-Application Development Review Committee Meeting. The decision of the community development department may be appealed.
